

Say goodbye to brown paper bags and loose change.

Compass Canteen makes ordering and paying for school meals easy for parents and students, and helps your school reduce logistical effort and food wastage. Bring your school canteen online and deliver a better food ordering experience for everyone.

Easy online ordering

Parents and students can pre-order through the portal or mobile app so there's less chance of missing lunch.

Spend management

Parents can top up their child's Compass 'wallet' balance online, in the parent app or using KioskPro.

POS integration

Our cashless canteen POS (Point Of Sale) system handles on the spot transactions so there's no need for extra EFTPOS terminals.

Tap and pay

For a quick and easy experience staff and students can use their Compass ID Card to pay for food.

Secure payment handling

Handle all canteen payments through one secure system which connects directly to your school's portal.

Ordering insights

Have full visibility of ordering trends to improve planning and reduce wastage.

Custom menus

Got a special school event coming up? Create custom menus which can be turned on and off as you need.

Flag food allergies

Parents can notify the school of any critical food allergies and intolerances.

See what's possible, contact our team to book a one-on-one demonstration. contactus@compass.education
